## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to show or to render obvious a wobbling irrigation sprinkler head having a base with an attachment portion for attaching to a water source, a nozzle mounted to the base for directing water from the water supply therethrough, a wobbling water deflector head having two end portions and being movably attached to the base between the two end portions and having a water deflector pad on one end portion having a deflector surface positioned to deflect water being emitted from the nozzle to rotate the wobbling water deflector head; and a counterbalancing skirt on the other end portion of the wobbling water deflecting head, the counterbalancing skirt extending around a portion of said base and spaced from the base for rotation with the wobbling water deflector head, whereby the counterbalancing skirt dampens, but not eliminates, deliberate vibrations in the wobbling sprinkler head.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
